

PR6 2010 SOLD VIA ROC

Price: £17000

Find for sale my Radical PR6 2010 chassis number 000038, genuine ex factory car ran by James Abbott so has all the spec boxes ticked including 4 way intrax dampers aim mxl dash data logger c/w smart cam, engine oil pre start heater, two sets of wheels 1x slicks and 1x as new wets, also if asking price is met i will throw in a brand new set of slicks still in wrapping from factory only bought two weeks ago in readiness for the warm weather, I bought the car from the radical factory in early december 2013 it has had a full factory refresh costing thousands to refresh the engine and gearbox and suspension I have done only 4 track days in it but am looking to get in to an SR3 to be able to use the two seats on track days, its as it came from the factory and has had an oil and filter change only an hours use ago, Ive added no more than 5 hours run on the engine (still under 40 hour factory warranty) I would be interested in a part exchange with cash either way for a late SR3 2008 onwards but nothing else
