### Description

This Radical is race ready as a sport racer. Radical's PR6 Prosport is a fast, nimble, high-performance sports racer with styling reflecting its Prosport 1300 roots. The central seating position chassis is Radical's lightest and most nimble to-date. The aerodynamics are up-to-the-minute, with huge amounts of downforce being generated by the SR9 Le Mans Prototype-inspired underbody diffusers. A fully FIA tested frontal crash box and MSA approved safety cell, gives drivers the confidence to explore the limits of the PR6's very predictable handling.
