

Radical SR1 SN 1 ad from ebay.co.uk

Radical SR1 Cup "Chassis Number 1" Owned by Radical from new - the original demonstrator - Factory Fresh!

This SR1 is chassis Number 1 and was Radical's own demonstrator on instruction days when the model was launched. The Radical was owned by them from new and has never been raced / crashed etc and obviously maintained to the highest standard by the factory.

We acquired the car directly from Radical Factory last year and it was purchased "Approved Used" with the following benefits:

- 100 point technical inspection and pre-delivery report
- Only manufacturer parts fitted by official Radical technicians
- Suspension Geometry reset to factory base line standards
- engine hour confirmation by RPE with Warranty (this car has not been started or used since purchase from Radical!)
- Owners Pack

As this car is chassis number 1 it has never been raced or crashed and is in excellent condition. The engine has never been stressed as it has a lower rev limit than the race cars and has not even been started since it was purchased from Radical. This car has been stood in our showroom and a lack of time to use forces sale.

Supplied with a spare set of wheels and wet weather tyres.

All the above is verified by paperwork and Radical factory if required. The last 2 pictures were taken at the Radical factory during preparation.

We offer nationwide delivery on this car, credit / debit cards accepted. Available for viewing at our showroom in Sheffield.
