Good afternoon Charley

My name is Alessio Zucchi

Sorry for not responding your inquiry on time.

This car is a 06 radical I bought it from a guy in California, he never drove the car he had it in his car collection.

Previous owner for what I can see in the log books was a track day club racing driver that bought it brand new from Factory and drove it in SCCA in California.

Car came with a 6 hours of use engine and gearbox. It has a lot of spare parts as you can see in the racing junk post. Brand new paddle shifters and keihin fcr41 carbs (no headaches with electronics) It has 100 total hours on chassis.

I raced and won a 1.5 hours SCCA enduro at homestead, that's the only race where I used the car.

I'm selling it because I'm buying a CN or an LMP3 car to run pro races.

The chassis number is: SR3 00132.

If you need more information fell free to contact me at any time.

Best regards
