SOLD--Radical SR3---23 Total Chassis Hours

SOLD

[SIZE=2]2010 Radical SR3 RS 1500cc for sale. Chassis #529. I am the second owner of this very low hour example. The car has been well maintained and serviced by Spring Mountain prior to me purchasing it in February 2017. I spent nearly \$7000 in parts and labor prior to taking delivery and have only tracked the car once since taking delivery. No stories. My racing priorities have changed and I'd like to free up some garage space. I have no issues with the car and would love to keep it, but it's just not in the cards right now. Anyone who has driven these cars knows that the car speaks for itself. The aggression at which you can attack corners is astounding and difficult to fathom when coming from GT cars. Please feel free to ask any questions at all. I will be forthcoming and happy to help clear up any questions. This is somewhat of a short add because it is simply a no stories car with a history of great service by the folks at Spring Mountain/Radical West. I will not separate the extra wheels and tires.

[/SIZE]

SOLD
