Subject: RE: Inquiry on Ad #183040793

Hi Charles,

Chassis number is SR800233 and engine number is RPX110 The price also includes a full spare chassis, the number on that one is SR800090

The car was run in some races 2014-2015 Radical Masters Europe. When I got the car I was told the engine and 2014 chassis had 40 hours on them which I couldn't confirm but seemed about right based on the racing it had done. The engine was rebuilt when I got it and I have put 20 hours since. This means the engine has 20 hours since the rebuild and the chassis should have 60 hours. There is a spare chassis (I believe MY2012) which is included in the price along with many parts as listed.

BR /

Diego
