

SR300032 Ad in [www.finecars.cc](http://www.finecars.cc) from 9/14/2010

2002 Radical SR3 2-Seat track car! Chassis # SR0032 right hand drive in black with just 21 hours and 1164 miles. Driven by a 1300cc Suzuki Wet Sump motor newly rebuilt by Powertec USA (receipts included) through a 6-Speed sequential gear box, driveshaft (not chain), and differential. Just 5 hours on rebuild. Also includes Aim Data Acquisition System with Display, extra set of spare wheels mounted with rain tires, new fuel system (including fuel cell, pump, filter, and Aeroquip fuel lines), Yoshimura exhaust silencer, high downforce front splitter and rear diffuser, oil cooler, rebuilt brake calipers and master cylinder, and new brake pads. Brakes adjustable via the cockpit brake bias control. Includes cockpit mounted fire suppression system. If you're looking for a toy specifically suited for the track, this is your car! The speed you can carry through corners is unbelievable thanks to the combination of its light weight and the incredible downforce generated by the body. Fully inspected both cosmetically and mechanically. Lamborghini Houston is a member of the MotorCars Auto Group which has been a Lamborghini Authorized dealer since 1989. We offer an extensive range of superb, low mile exotic and luxury automobiles. Our dealership features a beautiful Corporate Identity showroom, factory certified service center, parts department, and Lamborghini accessories boutique.
