Recommendations

- The previous engine rebuilder fitted cam timing chain a tooth off so that valves were hitting the tops of pistons. They also used a too large amount on silicon upon reassembly. The engine was well worn but mostly serviceable. A 1000GBP of goodwill was discounted by RPE to help offset the cost of some of the more expensive items (whole piston kit). We have passed that discount onto you.
- The guys at RPE said you are going to feel a HUGE difference in power!
- This doesn't include shipping and import taxes. Import taxes are usually 2.5% and comes to \$100-200 normally. When we get the shipping and tax costs, we'll invoice separately for those.
